Weather Report.

WASHINGTON, July 7, 1 a. m.—The following are the indications for Missouri: Fair weather, except local rains in extreme southeastern portion, winds becoming southerly, slight changes in temperature.

OVER THE OCEAN.

England.

LONDON, July 6.—The Press Association says there is good ground for believing that Mr. Matthews, home secretary, will resign, notwithstanding no action of the house of commons last night in connection with the Cass case. The Pall Mall Gazette says: "If Mr. Matthews were a man of honor and a gentleman this morning's paper would have announced that he had resigned. He would have left his ministerial career at almost continuous failure by exhibiting combined incapacities almost unprecedented."

Mr. Blaine was entertained at supper last evening by Mr. Henry Irving. A select number of persons, prominent in art and literary circles, were present. Mr. Blaine will start tomorrow on a tour through Scotland and Ireland, returning to London on the 25th. He will then go to the Hamburg for the waters and for rest. His route after leaving Hamburg has not been decided upon.

The sudden death of Mrs. Mary Myers Mitchell, wife of Noah Mitchell, of New Jersey, a boarder at Dr. Phillips, at Fiske, led to a two days inquest. It was suspected that she died from poison secured at Bourvenorth, but medical evidence resulted in a verdict of death from natural causes.

The conduct of the government over the affair has caused discontent even among the warmest supporters of the ministry. The explanation made by Mr. W. R. Smith in the house of commons was heard in the chilliest silence except when he announced that the lord high chancellor would institute a thorough inquiry into the matter. In consequence of the feeling in the Conservative party, Mr. Matthews has offered to resign the office of home secretary. He has been requested, however, to remain in office until the close of the present session of parliament. Two nights will be allowed for the debate on the third reading of the crimes bill. If the opposition endeavor to prolong the discussion the government will move that closure be applied.

Switzerland.

BERNE, July 6.—Half the new quays at Zug fell into the lake. Forty houses, a crowded inn and the Hotel Zurich, a four-story structure full of visitors, vanished entirely. The occupants of the buildings were engulfed while they slept and at least one hundred persons perished, including M. Collins, pastor of the English church. He is now at work trying to recover the bodies of the victims. An infant was found alive in a floating cradle.

HAVANA, July 5.—The English mail steamer from St. Thomas, which arrived here today, brings the following advices:

Coking Complications.

PITTSBURG, July 6.—A Unifonton, Pa. special says: The presence of Pinkerton's armed men in the coke regions caused intense excitement, and serious trouble may follow. The strikers are indignant, and denounce the action of the operators in bringing detectives into the regions in the loudest terms. Last night 500 strikers at West Leisler held a meeting and unanimously resolved to continue the strike. At Jintown it is said the men are weakening, and a large number are expected to return to work before the close of the week.

This was the day set by operators for the resumption of work by those of their old employees who expressed themselves as willing to go back at the old rate of wages. Works generally throughout the region were open to all who desired to return. At a number of them some of the strikers reported and were put to work. At no place was the number large, though as operators say there was enough to show that resumption of work had actually commenced on the morning designated. Everything is quiet and so Pinkerton's men had nothing to do.

Grain Rules Amended.

NEW YORK, July 6.—The following was adopted at a meeting of the grain today:

Amend the grain rules, rule 7, by adding new section 4, as follows, to take effect on all contracts made on and after August 1, 1887: Wheat sold for future delivery at the public calls on the floor of the exchange, unless otherwise specified, shall be known as contract wheat upon which the seller shall have the right to deliver, in lots of 8,000 bushels as provided in section 1, either in No. 2 red winter wheat or No. 1 hard spring wheat.

Amend rule 10 by adding new section 8 as follows: When a transferable order is issued for the delivery of what is known as contract wheat, the grade of wheat, the specific grade of wheat, either No. 2 red winter, or No. 1 hard spring, that is intended to be delivered, or no part of a load of either trade shall be deemed a good delivery except by mutual consent.

Mill Products.

MINNEAPOLIS, Minn., July 6.—The Northwest Miller says: The mills last week turned out the most flour since April 7. There was a big gain over the previous week. The product for the week ending July 2, was 139,000 barrels, averaging 33, 335 daily, against 121,500 barrels the corresponding week in 1886.

The same seventeen mills are running this week, but are being crowded more, and are producing 23,000 barrels daily. The majority closed down the fourth, and though some extra time will be got in, this week's work will hardly equal last week. After much murmuring about a moderate demand, large lots have been sold by one or more firms within a few days, New England being a liberal purchaser. Patents are much easier to dispose of than formerly, this grade forming a considerable item in exports.

Compromise Effected.

CHICAGO, July 6.—The general passenger agents of the Alton, Walsh and Illinois Central railroads were in session here today, conferring about the demoralization resulting from passenger rate cutting. After much murmuring about a compromise was effected by all parties agreeing that the tickets improperly limited should be referred to chairman Abbott and Daniels to decide as to what the limits should be, the interested lines undertaking to redress at tariff, all cut rate tickets of their issue and parts of foreign tickets at regular proportion, redemption to date from January 1st. An additional agreement was entered into abolishing the sale of all tickets at reduced rates to parties of ten and 200, these latter issues having led to a vast amount of rate cutting.

Newspaper Changes.

SPRINGFIELD, Mass., July 6.—A special to the Republican says: The Boston Daily Advertiser and the Evening Record have been sold to Charles E. Whititt of Whitittville, for \$100,000. The stock of the old corporation is wiped out and all of the old stockholders retire from the ownership in the new concern.

The Cranberry Crop.

MILWAUKEE, July 6.—A telegram to the Evening Wisconsin from Berlin says worms are destroying the cranberry vines in that section. It is feared the vine will be permanently injured. One grower who expected to harvest 15,000 bushels will not get any.
